

Mother's Day Bouquet

Supplies Used

- Variety of spring flowers and greenery
- 2 Offray Ribbons (varying widths)
- Offray Butterfly Floral Picks
- Glass Bouquet Vase
- 22 Gauge Paddle Wire
- 6" Wooden Floral Picks (not shown)

Designer's Quick Tip

To make the most dynamic final product, look for blooms of different heights and buy in bunches.

1 Gather materials. Group flowers and leaves together in bunches of varying heights and sizes. Cut paddle wire and secure bunches individually.

2 Take your floral bunches and stack from tallest in the back to shortest in the front. Tie bows and secure with paddle wire. Attach floral pick to each bow.

3 Set floral bunches in vase. If needed, adjust heights by trimming the bottoms of the stems.

4 Add your final touches! Place the bows in bouquet to balance out the colors of the flowers and add your butterflies.
